

About Us

At The Play Path we are dedicated to fostering a positive, hands-on learning community where children can explore, create, and grow.

Our philosophy is simple: children learn best by doing.

We believe that learning opportunities occur throughout the day, in every routine and interaction. This allows us to nurture students' social-emotional, cognitive, and physical development through child-centered activities.

Our Focus

- Language and Communication
- Social Skills Development
- Reciprocal Play Skills
- Sensory Exploration
- Motor Skills Enhancement
- Imaginative Play
- Emotional Identification and Regulation
- Self-help and Independence

Our mission is to foster a love for learning through immersive, interactive experiences that captivate young minds and ignite curiosity.

Preschool & Kindergarten

Investigators (Ages 2-3y)

Our youngest learners begin their journey through play and exploration. This program focuses on building foundational social, communication, and early learning skills through sensory play, movement, and simple routines. Children are supported in developing independence, engaging with peers, and becoming comfortable in a classroom environment while nurturing curiosity and confidence.

Creators (Ages 4-5y)

This program blends play-based learning with age-appropriate expectations to support problem-solving, cooperation, and classroom readiness. Kindergarten-aged learners are included and challenged through more advanced activities while remaining part of a collaborative, mixed-age learning environment.

Autism Therapy & Supported Learning

Explorers (Ages 4-6y)

Explorers is designed to support children who benefit from additional structure, individualized goals, or targeted skill-building. Children in this program receive intentional instruction while participating in classroom routines and play-based learning. Explorers may join the Investigators or Creators classrooms for portions of the day, allowing for meaningful peer interaction and skill generalization within a natural classroom environment.
